

Promotores Program Arrives at CHS

August 26, 2010

I am pleased to announce that CHS (Family Support) recently received a grant from the Children and Family Commission. This grant will allow CHS to hire a Lead Promotores (Spanish for peer leader/community navigator) who will in turn recruit, train and support a local network of Promotores that engage and link young Latino parents with the resources and supports necessary to strengthen their families and optimize the social, emotional, and cognitive development of their young children.

Analilia Garcia, who is a Promotores in the community, currently works part-time in Childcare at our Northshore Family Center, and will begin in this new position September 1st. Stacey DeFries, our Loving Families Director will supervise this new program.

I'm excited about this opportunity and merely wanted to share the good news with you. Please keep tuned for more information to come.

Beratta Gomillion
Executive Director
